**2nd International Postgraduate
Symposium in Biotechnology 2019**

Biotechnology is a progressive and evolving scientific area which offers infinite possibilities in shaping our lives. Recent advances in biotechnology had been successful in providing breakthrough technologies and products such as alleviating and preventing chronic diseases, provision of food security and promoting a shift towards greener and sustainable practices to attain a better ecosystem for future generations. In view of this, the 2nd International Postgraduate Symposium in Biotechnology 2019 (IPSB) aims to provide an innovative platform for knowledge sharing and opportunities for delegates to contribute and exchange ideas with like-minded peers at international level in the field of biotechnology.

The scope of the symposium includes (but not limited to):

- **Agri-biotechnology**
- **Molecular and genomic**
- **Health and wellness industry**
- **Herbal and industrial practice**
- **Microbiology and Food Analysis**
- **Sensory Science**
- **Herbal medicine**
- **Microbial bioprocess and fermentation**
- **Drug delivery and nano-technology**
- **Cosmeceutical**
- **Nutraceuticals**
- **Food Biotechnology**
- **Biochemical Research**
- **Biopharmaceutics**
