

NANJING,JIANGSU –CHINA 15TH-18TH NOVEMBER 2018

CONFERENCE ON FLOOD CATASTROPHES IN A CHANGING ENVIRONMENT II (CFCCE' II-2018)

SELECTED PAPERS will be
Published in International Journal
Hydrology Research (IF 1.81)

CALL FOR PAPERS

MAIN THEME

'Floods in Urbanized Area'

TOPICS:

- Climate change and floods
- Human activities and floods
- Prediction of flood events
- Flood mitigation in urban area
- Watershed floods management
- Paleoflood Hydrology
- Transboundary effects & issues on flood

Important Deadlines
Submission of Abstract/
Expression of Interests
10th November 2018

Submission / inquiry email:
YYNIU@niglas.ac.cn

REGISTRATION FEES:
Standard: US\$300 (RMB¥2000)
Students: US\$150 (RMB¥1000)

UTM
UNIVERSITI TEKNOLOGI MALAYSIA

Institute of
Environmental and
Water Resource Management
(IPASA)

Asian Network on
Climate Science and Technology
(ANCST)

seadpri
southeast asia disaster prevention research initiative

Nanjing Institute of Geography and Limnology, Chinese Academy of Sciences
**Key Laboratory of Watershed
Geographic Sciences**

中国科学院
CHINESE ACADEMY OF SCIENCES

2nd Announcement

CONFERENCE ON FLOOD
CATASTROPHES IN A
CHANGING ENVIRONMENT 2018
(CFCCE'18)

Floods in Urbanized Area

Nanjing, Jiangsu, China
15-18th NOV 2018

**Submission of abstract/
expression of interests**

10th November 2018

YYNIU@niglas.ac.cn

Topics:

1. Climate change and floods
2. Human activities and floods
3. Prediction of flood events
4. Flood mitigation in urban area
5. Watershed floods management
6. Paleoflood Hydrology
7. Transboundary effect, issues
on flood and interactions

General Inquiry:

Miss Lei TAN

E-mail: LTAN@niglas.ac.cn

Call for Papers (CFCCE'18)

Flooding is one of the natural disasters that causes severe losses and damage across the world. Recent studies indicated that the occurrence frequency of flooding might increase under future climate conditions. In addition, strong human activities, e.g. rapid urbanization and construction of hydraulic engineering, significantly modified drainage networks and further promoted floods risk. This is particularly true in many large rivers and lakes in the world, including Yangtze River and the connected lakes. Damages arisen from flooding attract serious attention of the government and local communities.

This conference is the 2nd one following the first one held in 2016 in Malaysia. It will provide a forum for researchers and managers to share the latest research outcomes on floods in typical areas. It is anticipated an improved understanding of the driving mechanism of flood events be achieved, and approaches of possible mitigation be suggested. Practice on flooding management from different regions will be shared in this conference.

Selected papers will be published in a special issue of international journal “*Hydrology Research*” (Scopus Indexed IF: 1.81)

Organizing Committee:

Chairman

Prof. Qi Zhang
Nanjing Institute of
Geography and Limnology, CAS

Prof. Lu Zhang
Nanjing Institute of Geography and Limnology,
CAS

Co-Chairman

Prof. Dr. Zulkifl Yusop
Universiti Teknologi Malaysia

Prof. Yuanbo Liu
Nanjing Institute of Geography and Limnology,
CAS

Members

Prof. Ji Shen
Director, Nanjing Institute of
Geography and Limnology, CAS

Prof. Hengpeng Li
Nanjing Institute of Geography and Limnology,
CAS

Prof. Xiaohong Gu
Vice-director, Nanjing Institute
of Geography and Limnology, CAS

Prof. Hongtao Duan
Nanjing Institute of Geography and Limnology,
CAS

Prof. Xuejun Duan
Vice-director, Nanjing Institute
of Geography and Limnology, CAS

Dr. Kogila Vani Annammala,
Universiti Teknologi Malaysia

Dr. Nor Eliza Alias
Universiti Teknologi Malaysia

Science Advisory Committee:

Chairman

Prof. Chongyu Xu
University of Oslo, Norway

Prof. Dawen Yang
Tsinghua University

Prof. Alfredo Mahar Francisco A. Lagmay
University of the Philippines

Committee Members

Prof. Ji Shen
Nanjing Institute of
Geography and Limnology, CAS

Dr. Apip
Indonesian Institute of Sciences

Prof. Xuejun Duan
Nanjing Institute of
Geography and Limnology, CAS

Prof. Guojie Wang
Nanjing University of Information Science &
Technology

Prof. Dr. Zulkifli Yusop
Universiti Teknologi Malaysia

Prof. Qing Zhu
Nanjing Institute of Geography and Limnology, CAS

Prof. Youpeng Xu
Nanjing University, China

Prof. Xijun Lai
Nanjing Institute of Geography and Limnology, CAS

Prof. Tao Yang
Hohai University, China

Prof. Qi Zhang
Nanjing Institute of Geography and Limnology, CAS

Invited Speakers

Prof. Chongyu Xu
University of Oslo, Norway

Prof. Alfredo Mahar
Francisco A. Lagmay
University of the Philippines

Dr. Apip
Indonesian Institute of Sciences

Prof. Youpeng Xu
Nanjing University, China

(more to come ...)

Organized by:

Nanjing Institute of Geography and Limnology,
Chinese Academy of Sciences (NIGLAS)

Co-Organized by:

- Universiti Teknologi Malaysia, (UTM), Skudai-Johor. Malaysia.
- Asian Network on Climate Science and Technology International Steering Committee (ANCST)
- Southeast Asia Disaster Prevention Research Initiative (SEADPRI), Universiti Kebangsaan Malaysia (UKM).
- State Key Laboratory of Watershed Geographic Sciences, Chinese Academy of Sciences (WSGS)
- Poyang Lake Aquatic and Wetland Ecosystem Observation and Research Station, CAS

Nanjing Institute of Geography and Limnology,
Chinese Academy of Sciences (NIGLAS)

UTM
UNIVERSITI TEKNOLOGI MALAYSIA

Institute of
Environmental and
Water Resource Management
(IPASA)
